Greg,

Here is one residents info that probably isn't on Summers spreadsheet as they contacted me directly. Please add them to your list for evaluation. Also, we did get a call from an April Geesey located at 192 Pickett Road Dover, PA who reported that her well was 'cloudy with grit' and that the well feeds a coy pond and all the fish are dead. Our ER responder is out there now looking at it since it's on his way home. If I get additional information I'll let you know. April can be reached at 717-332-9394.

I attached a Google Maps / GIS screenshot showing our distance to Slagle Run. Our well is approximately 250 feet below the Slagle Run elevation. I can also supply detailed info on the well if needed since we are the original owners and still have the paperwork from when it was drilled.

Please add us to the list you are maintaining and call or email with any questions.

Thanks again,

Scott
